**Certification of the Results of the Public Logic and Accuracy Testing
November 5, 2024, General Election**

Commencing on October 4, 2024, and completing on October 4, 2024, Public Logic and Accuracy Testing of the Dominion Democracy Suite Voting System was performed in the office of the Registrar of Voters. During the test, all possible combinations of ballots were cast on all Accessible Voting Units, HiPro Optical scanners, and Precinct Ballot Scanners to be used in the November 5, 2024, General Election. These votes were then tallied and compared against the expected results previously made available to the public at the start of the testing.

The comparison showed that the equipment performed with complete accuracy. Results are available for inspection at the Registrar of Voters Office.

Sincerely,
Art Tinoco
Registrar of Voters
